**Demolition Hammer
MT860**
11/16" : 17mm Hex Shank

Makita

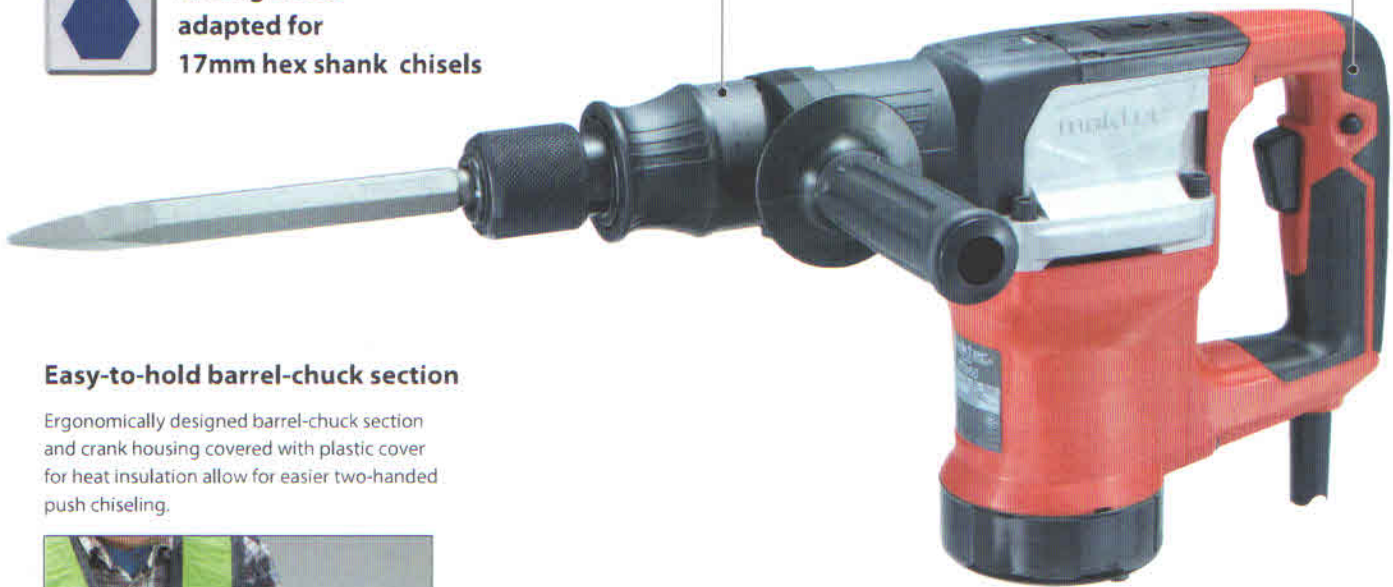

Industrial performance and durability at less expense

Sliding chuck adapted for 17mm hex shank chisels

Rugged steel barrel
employed for tough applications in developing countries

Soft grip
provides more comfort and control.

Easy-to-hold barrel-chuck section

Ergonomically designed barrel-chuck section and crank housing covered with plastic cover for heat insulation allow for easier two-handed push chiseling.

Compact and lightweight

Because designed with horizontal applications in mind, MT860 is more compact and lightweight to help reduce operator fatigue in long continuous use.

Satisfactory chipping performance

This first demolition hammer of maktec brand provides:

- Sufficient chipping efficiency
- The same feeling of powerful chipping, even in chiseling concrete of less strength, which is widely used in developing countries.

- Double Insulation
- 17mm Hex Shank
- Carrying Case

Continuous rating Input	900W
Impacts per minute (ipm)	2,900
Impact energy	7.2J
Dimensions (L x W x H)	406x99x232mm (16"x3-7/8"x9-1/8")
Net weight	5.4kg (12.0lbs)
Power supply cord	2.5 (8.2ft)

Standard Equipment :
Bull point, Side grip, Bit grease
